

Tennant Floor Coatings

Standard Colorants

Tennant colorants are available in a wide assortment of standard and custom colors. Colored coatings can be used to brighten or define areas of your facility, mark traffic aisles, route traffic, or cover stained concrete. Corporate logos may also be applied.

The colors as printed are close approximations and should not be used for specification purposes. Actual product may vary in tone and texture. Consult your Tennant representative for actual colored sample panels.

100 g/L standard colorants are available in Light Gray 100, Medium Gray 100, White 100 and Black 100. These colorants must be used with Eco-HPS 100 and Eco-HTS 100 for the combined VOC to meet 100 g/L limits.
